

Internet Fact Sheet

Thank you for making use of the internet facilities at the National Convention Centre. We have the following options for you to purchase:

Time Length	Down load limit	Cost	Connection
30minutes	50mb	\$5.00	Wireless only
1 hour	100mb	\$10.00	Wireless only
6 hours	500mb	\$40.00	Wireless & Cabled
10 hours	1gb	\$50.00	Wireless & Cabled
18 hours	2gb	\$70.00	Wireless & Cabled

If the down load capacity or time limit is reached another code must be purchased in order to continue using the Internet.

If using a cabled connection a cable set up fee of \$70.00 is required. Once logged into a cabled connection there is not way of logging out- therefore connection will conclude at end of time limit.

Wireless connections will allow you to log in and out by shutting down the web browser.

The size of the ADSL2+ feed into the centre is a maximum 12Mb download and 700kbps. upload. This is a "shared pipe" and is divided among all the users in the centre who happen to be on the system at the same time. Real or static IP address are included.

If you require a static IP address you need to contact the Reivernet helpdesk to organise this.

To access the NCC internet go to Internet Explorer, tools, options, connection and select LAN settings. Select "automatically detect" settings and OK. Refresh browser and the NCC sign on screen will appear. Please enter the code you have been issued.

If you require further support please contact the Reivernet helpdesk on 1300 300 472

Fibre Ethernet Fact Sheet

This product offers a high speed symmetrical internet, delivered over a fibre optic network. The committed bandwidth is 100% of the service bandwidth and the contention ratio for the service is 1:1. The packages offered below are designed with unlimited usage and includes the physical connectivity.

This service is ideal for those who require the following services:

- High speed internet
- Live webcasts
- On-demand webcasts

The charges for this service are based on the requirements for bandwidth (for example 10Mbps, 20Mbps and 50Mbps)

Bandwidth	Installation & Rental Fees		
	Single Day Use	2-7 Days	8-30 Days
10 Mbps + Unmetered IP	\$935.00	\$1,375.00	\$2,750.00
20 Mbps + Unmetered IP	\$1,265.00	\$2,035.00	\$3,850.00
50 Mbps + Unmetered IP	\$1,705.00	\$2,915.00	\$7,700.00

Terms and Conditions:

- All requests must be ordered 14 days prior to the start of the event to allow time for installation
- No refunds will be given if the service has been ordered and installed
- All prices quoted are inclusive of GST
